The following is an examiner's statement of reasons for allowance: the prior art taken alone or in combination neither discloses nor makes obvious the instant invention including formation of a first layer above a gate structure, and above a substrate including germanium, formation of a second layer above the first layer, and doping source and drain regions through the first and second layers, reducing back sputtering of germanium. Therefore, the prior art of record neither anticipates nor renders obvious the claimed subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
